When	Who	Comment
05/07/25	Michael Hodge	v1.0 Initial Document Creation
05/16/25	Veronica Williams	V1.0 Submitted to DHS
06/11/25	Yaw Adu-Boahene	v2.0 Updates to address DHS comments. • Tab: Business Rules, BR-D09-001 (Cell B2) Added FEI Response to the DHS comment and changed BR text to "consists of one outbound file for each FEA (currently 4)". • Tab: Business Rules, BR-D09-005 (Cell B6) Added FEI Response to the DHS comment. • Tab: Business Rules, BR-D09-006 (Cell B7) Added FEI Response to the DHS comment. • Tab: Business Rules, BR-D09-007 (Cell B8) Added FEI Response to the DHS comment. • Tab: Outbound File Mapping – Field: Units By Frequency (Cell L17) Added FEI Response to the DHS comment.
06/26/25	Michael Hodge	v3.0 Updates to address DHS comments • Tab: Business Rules, BR-D09-005: Business rule has been re-worded to state “Updates to a participant's ICA will not be a trigger to re-send a participant's authorizations in the FEA Authorization Extract”. Added FEI response to the DHS comment. • Tab: Business Rules, BR-D09-006: Added FEI response to the DHS comment. • Tab: Business Rules, BR-D09-007: Added FEI response to the DHS comment.
07/10/25	Veronica Williams	Approved via OnBase/DRAW

Business Rules

BR #	Description
BR-D09-001	The “FEA Authorization File” interface is used to send authorization information to the FEAs and consists of one outbound file for each FEA (currently 4) .
BR-D09-002	The FEA Authorization extract files are not full files every night. Only processed/approved authorizations that are new or have been changed are included in the file.
BR-D09-003	Each record in this interface is a combination of Authorization level and Service Line level information (one row per service line). For authorizations that are included in the file, generate one interface record for each of the authorization's service lines.
BR-D09-004	If the participant's FEA (location assignment) changes, then an all active authorizations for the participant should be included in the FEA Authorization Extract (for the new FEA).
BR-D09-005	If the participant's ICA (location assignment) changes, then an all active authorizations for the participant should be included in the FEA Authorization Extract. Updates to a participant's ICA will not be a trigger to re-send a participant's authorizations in the FEA Authorization Extract.
BR-D09-006	When any data element on a processed/approved authorization is updated, the authorization should be included in the FEA Authorization Extract (one record for each line item in the authorization).
BR-D09-007	When any data element on a line item for a processed/approved authorization is updated, the authorization should be included in the FEA Authorization Extract (one record for each line item in the authorization).

Context

Item Description	Details
Purpose of this interface	The Case Management system uses this interface to send Service Authorization information to FEA Organizations
External system that Blue Compass will interface with	Fiscal Employment Agencies (FEAs)
Interface Direction (Inbound/Outbound/Both)	Outbound
Transfer Protocol (Webservice, SFTP, etc.)	SFTP
Where is the file sent to or picked up from (End-point or Landing Zone location URL)?	FEI SFTP Site
Connectivity Protocols/Encryption/Authentication (VPN Tunnel, SSL Certificate swap, etc.)	SSL Certificate
File Type (xml, .csv, delimited flat file etc.)	.csv
Frequency	Daily
Timing Considerations (e.g. Day of the week and/or time of day files will be sent or available for pickup), or (When files are not available e.g. system maintenance windows, etc.)	TBD - 5 or 7 days per week? AI #348.
Retry procedure for file expected but not (received/available) or otherwise successfully delivered.	n/a
For inbound, what field(s) are used to match to data in Blue Compass?	n/a
Is every file a full file (reconciliation), or a delta? If a delta, will full files occasionally be sent/received? If so, how often?	Delta
Is there a field that represents the last time a row was edited, either a date or a datetime?	n/a
How are deletions handled? That is, if a data was sent previously but is no longer valid.	n/a
How are updates handled?	If an update is applied to any of the Blue Compass data elements, a record is generated for the authorization containing the current value for all data elements in the extract.
If there are multiple files in the interface: What field(s) are used to link them together? If there is an update in one file, will all the matching records be updated as well? For example, when a person's address changes will the update record include only the new address, or will it include a refresh of all of the person's addresses, or a refresh of all of the person's information?	n/a

Context

Item Description	Details
What is the file naming convention? (Ideally all files will have CCYYMMDD_HHmm as part of the file name)	[FEA Name] Authorization Extract CCYYMMDD.csv

Error Handling

This tab will be populated during development phase

System Error			
Error Code	Error Message	Corrective Action	Related BRs
