Inbound File Mapping

	Inbound File Layout						Blue Compass Application Tables (Destination)						
Descriptive Name	Data Element	Data Type	Length	Inbound File Notes	Required (R/O/C)	Default Value	Target Table	Target Column	Data Type	DB Field Length	UI Field Length	Related BRs	Mapping Notes
Header Record													
Record Type	Record Type	AN	3	HDR	R	HDR	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Control Number	Control Number	AN	12	Control Number - unique for every extract - YYYYMMDD_SSS (SSS=SEQ NUMBER)	R	n/a	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Creation Date	Creation Date	N	8	YYYYMMDD	R	n/a	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Creation Time	Creation Time	N	6	HHMMSS	R	n/a	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Detail Record													
Record Type	Record Type	AN	3	DTL	R	DTL	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Payer Identifier	Payer Identifier	AN	8	FEA ID	R	n/a	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Claim Number	Claim Number	AN	20	Claim ID interChange Number ID (ICN)	R	n/a	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Patient Control Number	Patient Control Number	VAR	38	Patient ID as the FEAs identifies the Member	R	n/a	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Claim Line Number	Claim Line Number	N	5	Detail number on the same ICN	R	n/a	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Authorization Number	Authorization Number	AN	30	Service Authorization Number sent by the FEA in the HDR and DTL of the claim.	R	n/a	n/a	n/a	n/a	n/a	n/a	BR-D11-001, BR-D11-002, BR-D11-003	Data in this field will not be captured from this interface.
Member ID	Member ID	AN	10	Member ID	R	n/a	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Billing Provider ID	Billing Provider ID	AN	10	Billing Provider ID	R	n/a	n/a	n/a	n/a	n/a	n/a	BR-D11-002	Data in this field will not be captured from this interface.
Rendering Provider ID	Rendering Provider ID	AN	10	Rendering Provider ID	O	n/a	n/a	n/a	n/a	n/a	n/a	BR-D11-001, BR-D11-002	Data in this field will not be captured from this interface.
Procedure Code	Procedure Code	AN	7	HCPC Code	C	n/a	n/a	n/a	n/a	n/a	n/a		Condition: Required if a Revenue Code is not included (one of the fields describing the billed service must be included). Data in this field will not be captured from this interface.
Modifier 1	Modifier 1	AN	2	Modifier 1	O	n/a	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Modifier 2	Modifier 2	AN	2	Modifier 2	O	n/a	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Modifier 3	Modifier 3	AN	2	Modifier 3	O	n/a	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Modifier 4	Modifier 4	AN	2	Modifier 4	O	n/a	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Revenue Code	Revenue Code	N	4	Revenue Code	C	n/a	n/a	n/a	n/a	n/a	n/a		Condition: Required if a Procedure Code is not included (one of the fields describing the billed service must be included). Data in this field will not be captured from this interface.

Inbound File Mapping

	Inbound File Layout						Blue Compass Application Tables (Destination)						
Descriptive Name	Data Element	Data Type	Length	Inbound File Notes	Required (R/O/C)	Default Value	Target Table	Target Column	Data Type	DB Field Length	UI Field Length	Related BRs	Mapping Notes
Date of Service From	Service Date From	N	8	From Date of Service YYYYMMDD	R	n/a	ServiceAuthorizationModule. ServiceUtilization	ServiceDateRangeStartDate	date	n/a	n/a		
Date of Service To	Service Date To	N	8	To Date of Service YYYYMMDD	R	n/a	ServiceAuthorizationModule. ServiceUtilization	ServiceDateRangeEndDate	date	n/a	n/a		
Adjudication Date	Adjudication Date	N	8	Date when the encounter was processed YYYYMMDD	R	n/a	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Units Billed	Units Billed	N	15,2	Quantity Units Billed	R	n/a	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Units Paid	Units Paid	N	10,2	Quantity Units Allowed	R	n/a	ServiceAuthorizationModule. ServiceUtilization	UnitCount	decimal	19,5	n/a	BR-D11-008	The ServiceUtilization UnitCount field is not a cumulative amount. A new ServiceUtilization record is created for each update.
						n/a	ServiceAuthorizationModule. ServiceLine	UtilizationUsedUnitCount	decimal	19,5	n/a	BR-D11-008	The Service Line UtilizationPaidUnitsCount is a cumulative count. Add or subtract from this amount instead of replacing. <i>Displays on the Service Details page -> Utilization -> Units Used</i>
Amount Billed	Amount Billed	N	10,2	Amount Billed	R	n/a	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Amount Paid	Amount Paid	N	10,2	Amount Paid	R	n/a	ServiceAuthorizationModule. ServiceUtilization	PaidAmount	decimal	19,5	n/a		The ServiceUtilization PaidAmount field is not a cumulative amount. A new ServiceUtilization record is created for each update.
						n/a	ServiceAuthorizationModule. ServiceLine	UtilizationAmountUsedCount	decimal	19,5	n/a		The Service Line UtilizationAmountPaidCount is a cumulative count. Add or subtract from this amount instead of replacing. <i>Does not currently display on the Service Details page.</i>
FEA Date Paid	FEA Date Paid	N	8	FEA Date Paid - YYYYMMDD	R	n/a	ServiceAuthorizationModule. ServiceLine	UtilizationDate	date	n/a	n/a		If there is an existing value, keep the latest date. <i>Displays on the Service Details page -> Utilization -> As of</i>
Adjustment Indicator	Adjustment Indicator	A	1	Adjustment indicator: Y - was adjusted, R - was resubmitted, N - neither	O	n/a	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.
Original Claim Number	Original Claim Number	AN	20	If the encounter was adjusted or resubmitted, Original ICN adjusted or resubmitted	O	n/a	n/a	n/a	n/a	n/a	n/a	BR-D11-006	Data in this field will not be captured from this interface.
Trailer Record													
Record Type	Record Type	AN	3	TRL	R	TRL	n/a	n/a	n/a	n/a	n/a		Data in this field will not be captured from this interface.

Inbound File Mapping

[illegible]

Context

Item Description
Purpose of this interface
External system that Blue Compass will interface with
Interface Direction (Inbound/Outbound/Both)
Transfer Protocol (Webservice, SFTP, etc.)
Where is the file sent to or picked up from (End-point or Landing Zone location URL)?
Connectivity Protocols/Encryption/Authentication (VPN Tunnel, SSL Certificate swap, etc.)
File Type (xml, .csv, delimited flat file etc.)
Frequency
Timing Considerations (e.g. Day of the week and/or time of day files will be sent or available for pickup), or (When files are not available e.g. system maintenance windows, etc.)
Retry procedure for file expected but not (received/available) or otherwise successfully delivered.
For inbound, what field(s) are used to match to data in Blue Compass?
Is every file a full file (reconciliation), or a delta? If a delta, will full files occasionally be sent/received? If so, how often?
Is there a field that represents the last time a row was edited, either a date or a datetime?
How are deletions handled? That is, if a data was sent previously but is no longer valid.
How are updates handled?
If there are multiple files in the interface: What field(s) are used to link them together? If there is an update in one file, will all the matching records be updated as well? For example, when a person's address changes will the update record include only the new address, or will it include a refresh of all of the person's addresses, or a refresh of all of the person's information?
What is the file naming convention? (Ideally all files will have CCYYMMDD_HHmm as part of the file name)

Context

Details
To communicate authorization utilization information from the MMIS to Blue Compass.
Wisconsin MMIS
Inbound (from Wisconsin MMIS to Blue Compass)
SFTP
Gainwell Connect
SSH Key
Pipe delimited flat file.
Weekly
Monday (Early Morning)
Gainwell Connect help desk number is (833) 289-0630.
Authorization Number and Rendering Provider ID
Delta
No
n/a
A weekly Authorization Utilization Interface Error Report will be generated for DHS to review.
n/a
DMS-CMM-WI_IRIS_ENCOUNTER_EXTRACT-W-YYYYMMDD_HHMMSS_XXX.dat

Business Rules

BR #	Description
BR-D11-001	The "Authorization Number" and "Rendering Provider ID" data elements will be used as matching logic to identify the corresponding Authorization record in Blue Compass.
BR-D11-002	If the "Rendering Provider ID" data element is Null, then "Authorization Number" and "Billing Provider ID" data elements will be used as matching logic to identify the corresponding Authorization record in Blue Compass.
BR-D11-003	If a matching Authorization record is not located in the Blue Compass based on the matching criteria, then an entry will be included in the Authorization Utilization Interface Error Report for DHS to review.
BR-D11-004	Gainwell will send all paid encounters with a Service Authorization number that are submitted by FEAs in the previous week (for the week that the extract job is run). There will be no filtering by date of service.
BR-D11-005	Gainwell will not apply a "claim type" or "type of bill" restriction to the extract. All claims from FEAs with an authorization number will be included.
BR-D11-006	For Adjustments, if the adjusted (daughter) claim is included in the extract, Gainwell will send the original (mother) claim number in the "Original Claim Number" field (even if the mother claim is very old or has a different authorization number associated).
BR-D11-007	Gainwell will produce one weekly file that will include utilization data for all of the encounters for all FEAs.
BR-D11-008	Services with unit_type_15_min_attribute set to "1" in the service definition represent services that are maintained in Blue Compass with Unit Type = "Hour" (but the value represented in the inbound utilization data from Gainwell is Unit Type = "15 Minute" increments). The "15 Minute" unit increments will be converted into hour increments for updating Blue Compass utilization tables (Units to apply to ServiceUtilization.UnitCount = Inbound "Units Paid" divided by 4).

Error Handling

This tab will be populated during development phase			
System Error			
Error Code	Error Message	Corrective Action	
ICD-D11-SE-001

ICD-D11-RV-003			

Requirements

Requirement Tracking		
Requirement ID	Description	Traceability Notes
R370	The Solution data exchanges must comply with CMS security and HIPAA transaction standards.	
R385	Solution must include various data exchange methods as necessary to support program-	
R386	Solution must allow for import and integration of data from multiple data sources to support program-specific Care Management System rules.	"Response from MMIS"
R388	Solution must include matching logic that uses multiple key identifiers when integrating with other data sources.	
R450	Solution must allow for the import and integration of participant’s provider claim information to decrement authorization information and maintain current authorization utilization information.	JH- Haven't we decided we no longer want to track utilization due to delay in encounter reporting? FEI Response - This requirement has not been removed by WI DHS, so it is an active requirement that FEI has to implement. There have been some discussions about how it can take time to receive fully adjudicated claims data from the MMIS for use in utilization tracking.
