

Medicaid Provider File Extract

Medicaid Provider File Extract

- The Medicaid Provider File Extract is generated **daily**.
- The extract is sent to FEAs, WISITS, MCOs, and HMOs and includes all provider types and specialties.
- FEAs will receive the Medicaid Provider File Extract in the “outgoing” folder on the SFTP site. The file will be named **“WI_PROV_FILE_EXTRACT_<environment>.psv”** where <environment> is set to ‘P’ for production file and ‘T’ for test file.
- MCOs and HMOs will receive the Medicaid Provider File Extract in the “outgoing” folder on the SFTP site. The file will be named **“WI_PROV_FILE_EXTRACT.psv”**.
- WISITS will receive the Medicaid Provider File Extract on the dotOR server. The file will be named **“WI_PROV_FILE_EXTRACT.psv”**.
- The extract includes information for all Medicaid Providers with active contracts within the last **24 months** (same as the Weekly HMO Certified Provider report).
- The extract includes all the information listed on the existing Weekly HMO Certified Provider report in addition to other data elements.

Medicaid Provider File Extract Layout

The extract will be generated in pipe-delimited format and contain different record types for each grouping of information as follows:

- 00: Extract File Information: contains general information such as extract date and number of records
- 01: Provider Information: one record per each service location. Will include all the information that does not have multiple values or date ranges associated with them such as Provider Name, MCD ID, Revalidation Date, etc.
- 02: Provider Addresses
- 03: Provider Tax Information
- 04: Provider Contract
- 05: Provider Type and Specialty
- 06: NPI
- 07: Taxonomy
- 08: ACA Information
- 09: Value Added
- 10: Provider Waiver Program (i.e., IRIS, etc.) including effective and end dates
- 11: Provider Waiver Service information including effective and end dates
- 12: Provider County and Tribe Served information
- 13: Provider License information
- 14: Provider Certification and Credentials information

Medicaid Provider File Extract

Note: In the table below, the **Field Order** is the field order from the Weekly HMO Certified Provider Report and is given for informational purposes only. If the field is only available on the new Medicaid Provider Extract File, the Field Order is blank.

Field Order	Field	Maximum Field Length	Field Description and Notes
Record Type 00: Extract File Information Record			
	Record Type	2 characters	Record Type is set to '00'
	Extract Date	8 characters	The date extract is generated in YYYYMMDD format.
	Extract Period Start Date	8 characters	The first date of extract reporting period (24months in the past) in YYYYMMDD format.
	Extract Period End Date	8 characters	The last date of extract reporting period (current date) in YYYYMMDD format.
	Number of Records	12 characters	Total number of rows (all record types) on the extract, excluding the Extract Information Record row.
	Number of Providers	12 characters	Total number of Providers (unique MCD ID) on the extract.
Record Type 01: Main Provider Information Record – One occurrence per Medicaid Provider File			
	Record Type	2 characters	Record Type is set to '01'
3	Medicaid Provider Number	15 characters	Proprietary provider ID
1	Provider Full Name	50 characters	This is the name of the organization or person who is certified to provide services. If the Provider Name Type is 'P' then the name is formatted as follows: Last Name = positions 1-25 First Name = positions 26-38 Middle Initial = position 39 If the Provider Name Type is 'B' then the full field is the name of business
2	Provider Name Type	1 character	This is an indicator of whether a name is that of a person or an organization. The current valid values are: B - Business Name P - Personal Name
	Organization Type Code	1 character	Organization Type Code such as '1' for "For Profit" or 'A' for "Tribal Agency". See Appendix A for valid values.
	Organization Type Description	25 characters	See Appendix A for valid values.
18	Medicare Part A	1 character	Indicator for provider certification for Medicare Part A This field will have a value of A for Medicare Part A
19	Medicare Part B	1 character	Indicator for provider certification for Medicare Part B. This field will have a value of B for Medicare Part B

Medicaid Provider File Extract

Field Order	Field	Maximum Field Length	Field Description and Notes
20	Location Status Indicator	1 character	Indicates whether the provider is in-state or out-of-state. Values are: O - Out of State Y - Out of State Youth E - In-state Emergency I - In-state
25	Billing Indicator	1 character	Indicates if the provider is allowed to be a valid billing provider, performing provider or both when processed by interChange system. The values are: Y - Biller N - Performer B - Biller and Performer R – Referring/Prescribing/Ordering
29	XML Indicator	1 character	Indicates whether this provider can be included on the XML provider file created by the HMOs. Y – Yes it can be included N – No it cannot be included Note: on the original HMO Certified Provider report this value is set based on the PTPS
	Provider Directory Indicator	1 character	Indicates if the provider should display on the Provider Directory. N – No, do not display on Provider Directory Y – Yes, display on Provider Directory
	Medicaid Service Provider Count	5 characters	Number of Medicaid Service Providers. This information is only available for certain PTPS who provide Waiver Services. Field is blank for all other providers.
	Medicaid Member Count	5 characters	Number of Medicaid Service Members. This information is only available for certain PTPS who provide Waiver Services. Field is blank for all other providers.
	Revalidation Date	8 characters	Revalidation Date on file for the provider in YYYYMMDD format.
	LTC Third-Party Delegate Action Indicator	1 character	Indicates if any Third-Party Delegate action was ever taken on behalf of the provider in the past. Y – Yes: The provider has third-party action information on file N – No: The provider does not have any third-party action information on file
	LTC Third-Party Delegate Last Action Date	8 characters	If the LTC Third-Party Delegate Action Indicator is YES, will contain the most recent date of LTC Third-Party Delegate action on file in YYYYMMDD format.

Medicaid Provider File Extract

Field Order	Field	Maximum Field Length	Field Description and Notes
Record Type 02: Provider Address Record – At least 3 occurrences per Medicaid Provider File (Latest Practice Location, Mailing Address, Pay To Address, and 1099 Address if present)			
	Record Type	2 characters	Record Type is set to '02'
3	Medicaid Provider Number	15 characters	Proprietary provider ID
	Address Type Code	1 character	Valid Address Type Codes: • S = Practice/Service location, physical address for the practice location of the provider • M = Mailing Address • P = Pay To Address for checks and remittance advice • I = IRS 1099 Address
	Name - Address Specific	50 characters	This is the name of the organization or person associated with the address type. If the Provider Name Type is 'B' or the Address Type Code is 'I', then the full field contains the name of the provider. If the Provider Name Type is 'P' and the Address Type Code is 'S', 'M', or 'P', then the name is formatted as follows: • Last Name = positions 1–25 • First Name = positions 26–38 • Middle Initial = position 39
4	Street Address 1	30 characters	Street address line 1
5	Street Address 2	30 characters	Street address line 2
6	City	30 characters	City
7	State	2 characters	State
8	Zip Code	5 characters	5-digit ZIP code
9	Zip Code Extension	4 characters	4-digit ZIP code extension
10	Practice Location County Code	10 characters	Physical address county code for the practice location of the provider. Only populated for Address Type 'S'.
	Email Address	256 characters	Email address associated with the provider mailing address. Only populated for Address Type 'M'.
	Contact Person	50 characters	Contact person name. Only populated for Address Type 'S' and 'P'.
	Phone Number – Contact Person	10 characters	Contact person phone number. Only populated for Address Type 'S' and 'P'.
	Phone Number Extension – Contact Person	4 characters	Contact person phone number extension. Only populated for Address Type 'S' and 'P'.
	Phone Number – Member Use	10 characters	Phone number for patients use. Only populated for Address Type 'S'.

Medicaid Provider File Extract

Field Order	Field	Maximum Field Length	Field Description and Notes
Record Type 03: Provider TIN Record – Zero or more occurrences per Medicaid Provider File			
	Record Type	2 characters	Record Type is set to '03'
3	Medicaid Provider Number	15 characters	Proprietary provider ID
	Tax ID Number (TIN)	9 characters	Tax Identification Number assigned by IRS
	Tax ID Type	1 character	Indicates type of Tax ID: • S = Social Security Number • F = FEIN
	TIN Effective Date	8 characters	The first date the Tax ID is effective. Format is YYYYMMDD.
	TIN End Date	8 characters	The last date the Tax ID is effective. Format is YYYYMMDD.
Record Type 04: Provider Contract Record – One or more occurrences per Medicaid Provider File			
	Record Type	2 characters	Record Type is set to '04'
3	Medicaid Provider Number	15 characters	Proprietary provider ID
11	Provider Contract Code	5 characters	Identifies the classification of services a Provider can bill, such as “Medical-Medical Serv” (contract code MEDSV) or “HCBS Waiver Services” (contract code WVR). A provider may have multiple contracts.
12	Contract Effective Date	8 characters	The first date the provider contract is effective. Format is YYYYMMDD.
13	Contract End Date	8 characters	The last date the provider contract is effective. Format is YYYYMMDD.
	Contract Enrollment Status Code	1 character	Provider contract status code such as A (Active), C (Change in Ownership), etc. See Appendix B for valid values.
	Contract Enrollment Status Description	21 characters	Provider contract status description. See Appendix B for valid values.
Record Type 05: Provider Type and Specialty Record – One or more occurrences per Medicaid Provider File			
	Record Type	2 characters	Record Type is set to '05'
3	Medicaid Provider Number	15 characters	Proprietary provider ID
16	Provider Type Code	2 characters	Interchange assigned provider type code
	Provider Type Description	50 characters	Interchange assigned provider type description.
17	Provider Specialty Code	3 characters	Interchange assigned provider specialty code.
	Provider Specialty Description	50 characters	Interchange assigned provider specialty description.
32	Provider Type and Specialty Effective Date	8 characters	The first date the specified Provider Type is effective. Format is YYYYMMDD

Medicaid Provider File Extract

Field Order	Field	Maximum Field Length	Field Description and Notes
33	Provider Type and Specialty End Date	8 characters	The last date the specified provider type is effective. Format is YYYYMMDD
Record Type 06: Provider NPI Record (when applicable) – Zero or more occurrences per Medicaid Provider File			
	Record Type	2 characters	Record Type is set to '06'
3	Medicaid Provider Number	15 characters	Proprietary provider ID
21	NPI	15 characters	National Provider Identifier
35	NPI Effective Date	8 characters	The first date the specified NPI is effective. Format is YYYYMMDD
36	NPI End Date	8 characters	The last date the specific NPI is effective. Format is YYYYMMDD
	NPI Type Description	50 characters	National Provider Identifier type description. Valid values are NPI and Subpart NPI
Record Type 07: Provider Taxonomy Record (when applicable) – Zero or more occurrences per Medicaid Provider File			
	Record Type	2 characters	Record Type is set to '07'
3	Medicaid Provider Number	15 characters	Proprietary provider ID
22	Taxonomy Code	10 characters	Provider taxonomy code identifying provider type and specialty
23	Taxonomy Effective Date	8 characters	The first date the taxonomy code is effective. Format is YYYYMMDD
24	Taxonomy End Date	8 characters	The last date the taxonomy code is effective. Format is YYYYMMDD
Record Type 08: Provider ACA Payment Hold Record (when applicable) – Zero or more occurrences per Medicaid Provider File			
	Record Type	2 characters	Record Type is set to '08'
3	Medicaid Provider Number	15 characters	Proprietary provider ID
26	ACA Payment Hold Effective Date	8 characters	Effective Date for Suspension of payment by The Office of Inspector General (OIG). Format is YYYYMMDD
27	ACA Payment Hold End Date	8 characters	Date which the provider was cleared from the suspension of payment. Format is YYYYMMDD
28	ACA Payment Hold Indicator	1 character	Indicates the outcome of the suspension of payment. Values are: A – ACA suspension is currently active. The Payer must suspend payment based on the effective date for the start of the investigation. C – Provider has been cleared of the suspension. Use the ACA end date for the end of the investigation. T – Indicates the provider has been terminated due to the outcome of the credible allegation investigation. Use the ACA end date for the termination date.

Medicaid Provider File Extract

Field Order	Field	Maximum Field Length	Field Description and Notes
Record Type 09: Provider Value Added Record (when applicable) – Zero or more occurrences per Medicaid Provider File If the Provider Type is Dental with contract code DENTL and their county is one of the Dental Pilot Geographical Group (group 104 - Brown, Marathon, Polk, and Racine) counties, then the provider qualifies for enhanced reimbursement rates.			
	Record Type	2 characters	Record Type is set to '09'
3	Medicaid Provider Number	15 characters	Proprietary provider ID
30	Value Added Payment Start Date	8 characters	Date which the provider was first eligible to receive payment. Format is YYYYMMDD
31	Value Added Payment End Date	8 characters	Date which the provider is no longer eligible to receive payment. Format is YYYYMMDD
34	Eligible for Value Added Payment	4 characters	Indicates what type of value-added payment the provider is eligible to receive. 0128 – Dental Enhancement Eligible provider.
Record Type 10: Provider Waiver Program Record (when applicable) – Zero or more occurrences per Medicaid Provider File			
	Record Type	2 characters	Record Type is set to '10'
3	Medicaid Provider Number	15 characters	Proprietary provider ID
	Waiver Program Code	5 characters	Provider Waiver Program (such as IRIS). See Appendix C for valid values.
	Waiver Program Description	50 characters	Provider Waiver Program Description. See Appendix C for valid values.
	Waiver Program Effective Date	8 characters	Indicates the first date provider is enrolled in the Waiver Program. Format is YYYYMMDD
	Waiver Program End Date	8 characters	Indicates the last date provider is enrolled in the Waiver Program. Format is YYYYMMDD
Record Type 11: Provider Waiver Service Record (when applicable) – Zero or more occurrences per Medicaid Provider File			
	Record Type	2 characters	Record Type is set to '11'
3	Medicaid Provider Number	15 characters	Proprietary provider ID
	Waiver Service Code	6 characters	Provider Waiver Service code. See Appendix D for valid values.
	Waiver Service Description	250 characters	Provider Waiver Service Description. See Appendix D for valid values.
	Waiver Service Effective Date	8 characters	Indicates the first date provider is enrolled in the Waiver Service. Format is YYYYMMDD
	Waiver Service End Date	8 characters	Indicates the last date provider is enrolled in the Waiver Service. Format is YYYYMMDD

Medicaid Provider File Extract

Field Order	Field	Maximum Field Length	Field Description and Notes
	Waiver Service Status Code	1 character	Provider Waiver Service status code such as A (Active), etc. See Appendix E for valid values.
	Waiver Service Status Description	30 characters	Provider Waiver Service status description. See Appendix E for valid values.
Record Type 12: Provider County and Tribe Served for Waiver Services Record (when applicable) – Zero or more occurrences per Medicaid Provider File			
	Record Type	2 characters	Record Type is set to '12'
3	Medicaid Provider Number	15 characters	Proprietary provider ID
	County Code	10 characters	County Code for county or tribe served by the provider.
Record Type 13: Provider License Record (when applicable) – Zero or more occurrences per Medicaid Provider File			
	Record Type	2 characters	Record Type is set to '13'
3	Medicaid Provider Number	15 characters	Proprietary provider ID
15	License Number	10 characters	Provider's license number.
	License Effective Date	8 characters	Effective date on file for the license. Format is YYYYMMDD
	License End Date	8 characters	End date on file for the license. Format is YYYYMMDD
	Licensure Board Code	3 characters	Code identifying the Licensure Board. See Appendix F for a valid list of Licensure Board Codes and Descriptions.
	Licensure Board Description	50 characters	Description of the Licensure Board. See Appendix F for a valid list of Licensure Board Codes and Descriptions.
	License Classification Code	3 characters	Code indicating the classification of provider license, for example, RN, ambulance, etc. See Appendix G for a valid list of License Classification Codes and Descriptions.
	License Classification Description	50 characters	Description of the license classification code. See Appendix G for a valid list of License Classification Codes and Descriptions.
Record Type 14: Provider Certification and Credentials Record (when applicable) – Zero or more occurrences per Medicaid Provider File			
	Record Type	2 characters	Record Type is set to '14'
3	Medicaid Provider Number	15 characters	Proprietary provider ID
	Certification Number	15 characters	Provider's certification or credential name or number. This may be blank.
	Certification Type Code	2 characters	Certification Type Code. See Appendix H for list of Certification Types included in the extract.

Medicaid Provider File Extract

Field Order	Field	Maximum Field Length	Field Description and Notes
	Certification Type Description	50 characters	Certification Type Description. See Appendix H for list of Certification Types included in the extract.
	Special Program Certification Code	2 characters	Special Program Certification Code. This value will be blank if Special Programs are not associated with the Certification Type. See Appendix I for list of Special Program Certifications included in the extract.
	Special Program Certification Description	50 characters	Special Program Certification Type Description. This value will be blank if Special Programs are not associated with the Certification Type. See Appendix I for list of Special Program Certifications included in the extract.
	Certification Effective Date	8 Characters	Effective date on file for the certification. Format is YYYYMMDD.
	Certification End Date	8 characters	End date on file for the certification. Format is YYYYMMDD.

Note: Some record types may occur more than once if there are multiple instances of the information on file for the provider. For example:

- If the provider has 2 NPI records during the 24-month extract reporting period, then the extract will contain two rows of NPI Record Type data.
- If the provider is serving 8 counties, then the extract will contain 8 rows of Provider County and Tribe Service Record Type data.
